

# TEST YOUR HOME FOR RADON

## WHAT IS RADON?

According to the Centers for Disease Control and Prevention (CDC), radon is an odorless and invisible radioactive gas naturally released from rocks, soil, and water. Radon can get trapped inside homes and buildings, and build up in the air. Over time, breathing in high levels of radon can negatively impact your health and cause lung cancer.

## RECEIVE A FREE RADON TEST KIT

Testing is the only way to know if you have unsafe levels of radon in your home.

The Ridgewood Health Department has a limited supply of radon test kits. Please call 201-670-5500, ext. 5503 if you are interested in receiving one.
